

(R20A0522) BLOCKCHAIN TECHNOLOGY

Unit wise Important Questions

Unit - I

1. What is block chain? Explain in detail about centralized, decentralized and distributed systems with neat diagram.
2. Explain in detail about CAP theorem and list out the benefits and limitations of block chain.
3. Illustrate the methods of decentralization in detail.
4. Briefly explain decentralization frame work with example.
5. List the comparison between centralized and decentralized systems (networks/applications) and write notes on routes to decentralization.
